Consumers, who have purchased the specific product above, during these dates, should stop feeding it to their dogs. Consumers who have purchased any of the products affected by this recall should dispose of it or return it to the retailer for a full refund. All Bags in the recall are yellow with the Elm Pet Foods Tag on the front of the bag and have a silhouette of a chicken at the bottom of the front side of the bag. Consumers can check the lot codes on the back of the bag at the bottom center on the 3lb bags and in the center of the back of the bag on the 28lb bags. The 40lb bag lot numbers can be found on the bottom right of the back of the bag.

Lot codes in this voluntary recall were distributed in PA, NJ, DE, MD.

Dogs ingesting elevated levels of Vitamin D may exhibit symptoms such as vomiting, loss of appetite, increased thirst, increased urination, excessive drooling and weight loss. Vitamin D when consumed at very high levels can lead to serious health issues in dogs including renal dysfunction. Consumers with dogs who have consumed the product listed above are exhibiting these symptoms, should contact their veterinarian.

If consumers have questions or would like a refund they should call ELM Pet Foods at 1-800-705-2111 8am-5pm(EST) Mon-Fri. or email customerservice@elmpetfoods.com (<mailto:customerservice@elmpetfoods.com>).

No other *ELM Pet Foods* products are impacted.

This is a voluntary recall and is being conducted in cooperation with the U.S. Food and Drug Administration.
